## Red Striped Poles Mean Fire Boxes

If your house catches fire look for a red striped telephone pole. There you will find a fire alarm box.

So runs the advice of Chief Connelley, who has just completed repainting the 70 fire alarm boxes attached to the telephone poles.

The idea is that there are so many new comers in town, explained the chief, "that there are a lot who don't know what to do in case of fire. Before we painted the poles they would have to make a search for a box. Now they can see the box location from any angle."

Only 26 licenses were granted this month, while in June, 86 made application to marry. May comes next with 67 licenses granted, and July lags last with a crop of only 23 licenses.

Have a **PLAYER** but  
keep your present piano

DO you now that the makers of the Famous Schuman Iano have developed a player action which is so compact that it can be played in your piano without changing its appearance and it will be as good in performance as the higher priced player piano?

The Conrto plays the highly classical as well as popular music so natural-

ly that it cannot be told from hand playing. This action does not interfere in any way with playing the piano by hand and the investment is small compared to the pleasure it brings to every member of the family. If you knew the joy that could be obtained from a player, you would not hesitate a moment in securing full particulars.

We have used piano converted into a player piano, on demonstration at the store.

## The Miessner Piano

The little Piano with a "Big Tone" is only about half the size of the ordinary upright, yet it possesses a tone of such volume and quality that it is the marvel of all musicians who hear it.

### The Tone Is Truly Amazing

People who hear the Miessner for the first time are fairly amazed at its full, clear, resonant tone. If you were sitting in an adjoining room when the Miessner is played you could easily believe you were hearing a small grand piano, so closely does the Miessner approximate in tone quality and volume.

### Only 3 Feet 7 Inches High

The many advantages of such an instrument are quickly apparent.

It is easy to move; two men or boys can easily lift it from the floor. The maid can move it around the room in cleaning, without unusual effort.

### A Practical Piano In Every Way

Its small size enables it to fit in the smallest home or apartment.

It brings music where music was impossible before. In the sun room, in the den, in the child's room, in the summer cottage, in the yacht, anywhere the Miessner can be placed and it will fit in harmoniously with the surroundings.
